

Motorcycle Manufacturer	aprilia
Model	SCARABEO 50/125 / 150/200 cc (2-stroke models)
Year	//
Issue	03/02 – rev. 00

Recommended siting	Behind the front shield, under the horn. The cable exit should point upwards.
Power supply	Connect the positive supply wire of the alarm to the RED/ORANGE wire available in the white 2-way connector of the loom coming out of the ignition lock. Connect the negative supply wire of the alarm system directly to the battery.
Engine immobilisation (1)	Follow diagram B. Cut the GREEN/ORANGE wire available in the white 2-way connector of the loom coming out of the ignition lock.
Engine immobilisation (2)	Cut the YELLOW/RED wire available in the white 6-way connector placed behind the front shield.
Ignition controlled positive supply	Connect to the GREEN/ORANGE wire available in the white 2-way connector of the loom coming out of the ignition lock. It is the same wire as used for the engine immobilisation (1).
Turn indicators	Connect to the LIGHT BLUE wire and to the RED wire of the white 9-way connector, placed behind the front shield.
